

character, recognizing that Senator Nichol, Senator Vickers, and others will take into consideration the debate that was held here this morning, the remarks and suggestions of Senator Chambers, Senator Vickers, and others. I know that Senator Chambers speaks the truth when he refers to the fact that many people from my profession of agriculture contact him. I would also suggest that perhaps many others do contact their own individual Senator and probably do not call it to the attention of myself or Senator Chambers and perhaps the fact that it is not dealt with publicly does not in any way diminish the fact that the Senator is nonetheless working on the issue. But I would like to say this, that if we do not pass the resolution, we are saying in effect that we do not want input from the public and I think that would be a mistake. I would hope you would pass the resolution and then leave it up to the leadership to go about the carrying out of the arrangements for the trip and the subsequent meetings we will be holding. Thank you very much.
